

Presents

SEMINARS and WORKSHOPS For 2009

All seminars and workshops will be held at Carolina Raptor Center's environmental education center, located inside Latta Plantation Nature Preserve about 20 minutes from Charlotte, NC. Limited class size enhances opportunities for discussions and Question/Answer sessions. For hands-on portions the class will divide into small groups, each supervised by a trainer to ensure that everyone will be able to practice new techniques

Husbandry & Training Workshop

This workshop is designed for beginner and intermediate level educators, trainers and caregivers. The information presented is based on over 20 years at CRC of caring for permanently disabled injured raptors. If you are looking for an intensive learning experience that combines lecture, open discussion and hands-on activities with live birds, then this is it! Classes will be taught by CRC staff members.
